WHITE PAPER

Summary

We are launching world's first asset backed utility token aimed to furnish greater returns to our founders by securing their investment in terms of Agricultural Crop under red sandal cultivation project scheduled to be raised in an extent of 100 Acres in survey numbers 85-2, 295-3, 295-4, 295-5, 297-3, 297-4, 297-5 and etc., at Seetharamapuram Village, INDIA-524310. It is our realistic approach of our ICO by providing real-time benefits to our utility token by way of high valued agricultural crop. The Red Sandal Crop is a most valuable crop in the world and it is largely available in Southern INDIA as it has robust global demand due to its multiple applications in various industries. Our token will be listed in all prominent Crypto Trade Exchanges worldwide for its easier conversion and marketability.

WHITE PAPER

What is Cropshare Token?

CROPSHARE is a sophisticated Utility token backed by an agricultural crop of red sandal cultivation project to the Crypto world which is intended to raise investments in to the Agricultural development in rural India. CROPSHARE provides long term benefits under Red Sandal cultivation, which is a world famous rare plant variety available only in India which has robust demand in the rest of the world for which our ICO project yields higher returns to our founders. Even for a small investment our founders will realize greater returns in 10 years crop tenor which will be around 137 times higher than their investment amount. Thus, our CROPSHARE token (CST) indicates a real growth to your investment.

Our Strategy

Transparency is our paramount consideration in order to safeguard the interest of our funders by providing aggregate share at the rate of 30% in the net sale proceeds of our crop for which no ICO can dare to invoke in to the provisions of utility token with practically proven concept as if our CROPSHARE. It discloses our determination, dedication, commitment and reverence towards our funders by providing macro returns for your micro investment by adhering to the protection of interests of our valuable funders globally.

Note: Maturity benefit after harvesting shall only be against our issued tokens hence our initial funders may keep their tokens until the proposed red sandal crop is harvested in order to avail huge maturity benefit after 10 years.

ICO Factsheet

CROPSHARE TOKENS (CST), this is our first ICO and this is only 30% of all financing, rest of 70% is coming from Cropshare equity funds and other financial sources. This makes our tokens strong! In total we have 20 million tokens and for ICO, put on sale are 6 million tokens for total value of 6 million USD, where 1 USD equals to 1 token (or) 1 token equals to 1 USD. Thus our financing through this ICO is 6 million USD will be scheduled to outlay on the procurement of land and its development activities at Seetharamapuram Village in India together with our other sources of funds in the project.

Coverage

CROSHARE brings token coverage and highest returns both the concepts under one roof in order to smooth the progress of the token with greater returns instantaneously and technically well advanced payment method in the top leading exchanges is one of the sacrosanct measures available with our CST token for superior convertibility in to various globally accepted currencies.

Futurity

The Red Sandal Plantation is an innovative step and it is a growth driver of our token in the global market in terms of higher market demand and value appreciation. Another growth parameter is lower availability of tokens in the market i.e.6 million tokens put for ICO out of 20 million which makes our token precious in terms of availability.

Token Value Proposition

The Red sandal wood is famous for its aroma & growth. Red Sandal can be grown especially in Andhra Pradesh state in India, can be planted in 10 x 10 feet spacing which yields 500 Kgs by 10years of Heart wood (Red sandal wood) for each tree. The Red sandal wood is of high demand in China, Korea, Singapore, Malaysia, Canada, USA, UK, Singapore, Malaysia and Gulf countries. Red Sandalwood oil is amazing oil that aids in curing skin conditions like dry skin, crackling, flaking and wrinkles and other imbalances which makes the skin prone to acne, blackheads, redness and skin irritations. The goodness of sandalwood oil assists in restoring the damaged skin cells promotes the skin complexion and maintains skin glow and radiance. Even more benefits are underlying with our Cropshare project.

Legal Status

The Honorable SUPREME COURT OF INDIA on Wednesday quashed an order by the Reserve bank of India (RBI) banning financial services firms from trading in virtual currency or crypto currency. Such decision came after hearing several petitions challenging RBI's April 2018 order imposing a ban on financial firms or individuals in India from trading in crypto currencies. Now it's very much legal in dealing with crypto currencies and their related activities after the verdict pronounced by the apex court of INDIA. Hence, 2020 welcomes the growth in Indian Crypto market for which we initiated a secured, innovative and guaranteed ICO Project to enable our funders a protective, reliable and transparent token by way of CROPSHARE
